*Making a Difference in Real Estate*

*"After receiving a job offer I could not turn down, not knowing a soul, my wife and I moved 500 miles away from where we have spent our entire lives. We were shown houses, but I just did not have that warm and fuzzy feeling that we were being represented in our best interest until we met Rick. From beginning to end he made sure we were taken care of. Service above and beyond would not come close to describing what he has done for us. Rick has become more than a friend, we feel like he is part of the family!"*

- Toni and Tracy Diiullo (Temecula, CA)

*"We were already packed. Our house fell out of escrow 10 days prior to us moving into our dream home. Rick stepped up to the plate and bought our house, as he said he would. Thank you Infinity Properties. Without you we would have lost our dream home."*

- John & Kathy D'Agostino

*"When the Real Estate market is hot, anyone can sell real estate, when the market is slow, only an excellent broker can help you. Rick Baeseman sold our house in 24 hours! Rick is the Best the Best."*

- Jim & Dawn Merzon (Paso Robles, CA)

*"We began our friendship with Rick when we bought our first home from him several years ago. We have since sold that property and purchased the lot we are now building a home on. Just like the first time working with him, everything has been professional from start to finish. I would and will recommend his services to anyone, not only buying a new home but also for selling one! It is very hard to improve on excellence and we couldn't have done it without him! Thanks so much!"*
